

## **Accommodation for New and Continuing Student**

As a result of limited accommodation, **THIS TIME** on-campus accommodation has been reserved for female students. However, for the same reason, not all female students will secure accommodation on-campus. Those female students who have already requested for on-campus accommodation through the office of the Dean of Students are currently being notified about their selection. Those who requested for accommodation should check their emails.

As Jordan University College is eager to ensure that all students are well accommodated, efforts have been made to secure some off-campus accommodation in different locations nearby the college. Male students, and some female students who may not secure on-campus accommodation this time, are advised to contact the Dean of Students ( [juco\\_deanstudents@yahoo.com](mailto:juco_deanstudents@yahoo.com) or 0754559118; 0717189240 ) as soon as possible for details about the places for their off-campus accommodation. These details include the costs for their off-campus accommodation and modalities of payment to the owners of the hostels.

Students for off-campus accommodation should also note that the new hostels currently being constructed within the campus is expected to be completed in a couple of months to come. Consequently, as you make your payments in any off-campus hostel arrangement, do so in view of the new hostel within the campus that will be completed soon.
